GOVERNMENT EMPLOYEES SALARY REFORM ACT OF 1964

1. The President has approved the Government Employees Salary Reform Act of 1964 which provides salary increases for Federal employees who are compensated under the provisions of the Classification Act of 1949, as amended. As a matter of policy, the Agency has adhered to the salary schedules of the Classification Act. Consequently, salary increases for officers and employees of the Agency in accordance with the new schedules prescribed in the Government Employees Salary Reform Act are effective 14 August 1964. The retroactive provisions of the new Government Employees Salary Reform Act of 1964 do not apply to Agency employees, and the Agency is without authority to adopt the new rate schedule on a retroactive basis. It was hoped that the Congress would include in this legislation the necessary authorization to make increases for employees of the Agency retroactive to the date established in the Act. Vigorous efforts are being made to secure the necessary authorization for this Agency, and those agencies similarly affected, to accomplish these retroactive salary adjustments.

2. Salary checks to be issued on 11 September 1964 for the pay period 16 through 29 August for employees paid from vouchered funds will be based on the increased rates of compensation (listed on the back of this notice). Salary checks to be issued on 11 September 1964 for the period 2 through 29 August for employees paid every two biweekly pay periods will include computations at the increased rates of compensation applied to the biweekly period 16 through 29 August.

3. Since it is not feasible to compute the new compensation rates for the partial biweekly pay period of 14 through 15 August on a current basis, a separate check will be issued for this period as soon as practicable. Appropriate announcement will be made regarding the date these checks will be distributed. Employees are requested to refrain from contacting either payroll office with respect to retroactive payments.
